It was our last day of camp and after a restless sleep we woke up super early in the morning. We were bursting with excitement for the day ahead. Our teachers told us to pack up our things and get everything organised so we would be ready to leave after the day of activities. It took awhile to get our belongings onto the bus and it was hot as the sun was already beaming down.

We went on a long bush walk. We spent over an hour dodging spiders, snakes, wild animals and fallen trees. We came to a large area with tall trees and a lake. They told us to get into our tribal groups. Our tribal groups were based on Australian animals such as the Skink, Frog, Koala, cockatoo etc. We spent hours doing fun activities like patting and holding snakes and lizards, building insect hotels, planting trees and many more things that taught us about ways we could care for the environment.

The whole camp was really fun and we all enjoyed it.
